New Hybrid SWEET CORN—346 Erie ***Honorable Mention 1947 All America Selection***

A beautiful quality Hybrid Sweet Corn with long, slightly tapering, cylindrical ears set with 12 or 14 rows of attractive kernels. The plants are wilt-resistant, vigorous, and relatively resistant to drought. They are adapted to widely different growing conditions. As compared with Golden Cross Bantam, this Hybrid produces plants which are 6 inches taller and bear their ears 4 inches higher on the stalk. The ears mature 3 or 4 days later. It always has outyielded Golden Cross Bantam. The kernels are decidedly narrower than those of Golden Cross Bantam which adds to the attractiveness of the ears and facilitates eating from the cob. Actual canning tests have proved its excellent quality for this purpose. 1 to 4 lbs., 48c per lb.; 5 to 29 lbs., 46c per lb.; 30 to 99 lbs., 44c per lb.; 100 lbs. or more 42c per lb., not prepaid.

VEGETABLE SEEDS

Dreer Quality for Market Gardeners

Every successful market grower realizes the tremendous importance quality seeds play in the production of profitable crops. The market gardener who makes his livelihood from the sale of the produce grown cannot afford to sow seeds of doubtful value. He must have highly bred strains carefully selected from vigorous parent plants that show all the typical characteristics of the true variety. They must be full of vigor and vitality to make a sturdy growth from the start. For over a century market growers have realized that they can depend on Dreer's to supply them with the finest in Vegetable Seeds. The prices quoted are subject to change without notice.

✓ All Vegetable Seeds except where otherwise specified are Sent Prepaid

Bulky items such as Beans, Peas, Sweet Corn, Grass Seeds, etc., are not prepaid.
